LANE DRAWS

For Heats in Round 1

Athletes are divided into heats, based on personal and seasonal best performances.

Lanes are allocated for all heats on a random draw.

For Subsequent rounds

After the first round, the ranking order will be based on the positions and times in the preceding round

Heat winners, in time order, are given favoured lanes.

Then second placed athletes in rank order, followed by third placed athletes until all favoured lanes are allocated.

Allocation for favoured lanes are made on a random draw.

All remaining athletes are allocated un-favoured lanes again on a random draw.

Favoured lanes for 60m and 60mH are 3 and 4, then 2 and 5 and then 1 and 6.

Favoured lanes for circular races are 5 and 6, then 3 and 4 and then 1 and 2.

The Chief of Photofinish or an official nominated in their stead shall determine the Qualifiers for subsequent rounds of competition.
