

Kent League Cross Country – Swanley Park
Sat 12th October 2019

Information about this fixture and venue.

- The Swanley Park Management will be charging their normal fee for parking. This is £2-50 by card, or £3-00 cash. They will be managing the car parking.
- There are two car parks, which also have overflow areas, these are marked on the map sent out, and on the KCAA site.
- The larger car park (1), is accessed from New Barn Road. New Barn Road will have a one way system in operation. “In” is from Fivewents, on the B258. “Out” will be left out of the car park towards Leydenhatch Lane.
- The smaller car park (2), is accessed via The Birches.

- *The Park Railway have the option to run until the end of October, so the course has had to be planned to take this into account, as we must not cross it during the races.*
- *The majority of the course is good grassland, but there are stretches of fairly soft surfaced paths, and some areas of tree roots that will be marked and flagged.*
- *The Management are being very helpful in cutting back bushes to give as wide a path as possible.*

- Race HQ will be in the Swanley and District AC Clubhouse, which is in the buildings behind the Café.
- There will be a combination of portaloos and public toilets.
- The Café will be open.
- Please make sure no litter is left, especially around the tents. When we were last at this venue in 2015, I had a complaint from the Council about this.
- Club tents will be best located alongside the “fruit” trees leading from the Top Car Park down towards the Start/Finish area.
- Please be sensitive to other Park users.

Hopefully if we play nicely, we'll be allowed back next season.
