

KXCL Parking at Swanley 2025

Additional Points beyond those that were sent out earlier in the week.

There are two machines at the Lower Car Park, but only one at the Upper Car Park.

Payment is possible by cash, card and App.

Overflow car parking also has to be paid for.

The Lower Car Park has no height barrier. The overflow area on grass is very muddy. If the Lower Car Park is full, go back out to College Road and drive along to the bottom of The Limes which is in Hextable. Again some street parking is available. 5 minute walk to the Park up Avenue of Limes.

The Upper Car Park is closest to the Town Centre, and there is street parking available. There is a height barrier of 2.1m. The overflow grass parking area is worth checking out, but don't gamble without checking first.

If you enter a car park and it is full, there is no charge if you leave within 15 minutes.

The Kent Fitness Cross Country League held a fixture here on 10th November with 600 runners in one race, but I didn't hear of any major issues with Parking.
